# Big Lifter Vehicle Lift

This easy to use product lifts and stores your unoccupied scooter or powerchair inside your vehicle at the touch of a button. Simply connect the docking device, push a button on the hand-held pendant, and let your VSL-570 do the heavy lifting for you! Once lifted to the proper height, the lift is then manually rotated.

Highlights:

- Power raise/lower - Makes lifting your scooter or powerchair virtually effortless (400 lbs/181 kg lifting capacity)
- Manual rotation - low resistance design glides smoothly
- Upgradeable to power rotate function - if your needs change down the road, this lift can be converted from manual to power rotate
- Docking device for your scooter or powerchair is included at no charge
- Offset Arm Design - Allows lifting/lowering behind, at the rear corner of, or on the side of the vehicle (near the rear wheel)
- Fold-down Lift Head allows partial third row seating access (where applicable) or cargo space and improved driver visibility when mobility device is not present (requires optional quick release pins)
- Available for passenger or driver side of vehicle
- Safe/Reliable - lifecycle and strength tested beyond industry standards
- No structural modifications to your vehicle - can be easily removed for vehicle resale
- Can reinstall in your next vehicle
- Works with minivans, SUVs, CUVs and full-size vans
- Hundreds of custom, vehicle-specific mounting kits are available for an extra clean and precise installation
- Bruno Turning Automotive Seating™ (TAS™) complements your VSL-570 for a total mobility solution
