

Out-Rider Vehicle Lift

This incredible product lifts your unoccupied manual wheelchair, scooter or powerchair from the front door of your pickup truck and stores it in the bed for transport, all at the touch of a button. Simply connect the docking device, push a button on the hand-held pendant, and let your Out-Rider do the heavy lifting for you!

Model PUL-1100 Highlights:

- Fully Powered - Makes lifting and storing your manual wheelchair, scooter or powerchair in the bed of your pickup truck virtually effortless (350 lb/159 kg lifting capacity)
- Outer Arm Design - A variety of outer arms are available to accommodate different length cabs so that you can drop your mobility device close to the front door (no need to walk to the back of the truck)
- No bed cover required - Out-Rider® lift is designed to withstand outdoor elements
- Available for passenger or driver side of pickup truck
- Safe/Reliable - lifecycle and strength tested beyond industry standards
- No structural modifications to your truck - can be easily removed for resale
- Can reinstall in your next pickup
- Works with many different pickup trucks
- Sales, installation and service provided by our factory-trained technicians
