

QRT Max

The latest innovation in retractor systems, the QRT Max is the latest generation of self-locking, self-tensioning retractable wheelchair securement systems, and provides a variety of innovative features that maximize ease of use and passengers' safety.

Features and Benefits:

- Knobless, One-Hand Operation - No knobs to interfere with wheels and footrests and eliminates confusion as to whether additional tightening is required
- Automatic, Self-Locking - Allows easy, one-handed hook-up of wheelchairs
- Self-Tensioning - No manual tensioning required. Retractors automatically take up 'slack' to ensure wheelchair passenger is always secured
- Positive Lock Indicator - patented feature clearly indicates when fitting is locked in anchorage (L-track application only)
- Interchangeable - eliminates confusion; no right, left, front or rear locations
- Low Profile & Compact - No mounting bracket allows retractors to fit under most footrests
- Accommodates Larger Wheelchairs - Reduced overall retractor length leaves more room for wheelchairs
- Universal Design - accommodates virtually all wheelchair designs, including scooters
- Durable - constructed from hardened steel and coated in zinc for maximum corrosion resistance
- J-Hook - reduce twisting of belts and ensure proper securement with a quarter turn and accommodates virtually all wheelchair designs
- Foot Release Lever - easy release eliminates the need to bend down

Specifications & Details:

- Compatible Anchorages - Slide 'N Click, L-Track and A-Track floor anchorages, or may be directly mounted to vehicle floors, seat legs or barriers
- Warranty - 3 years
- Testing - Crash tested to 30mph, 20 g's
- Meets or exceeds the following standards and regulations:
 - SAE J2249
 - ISO 10542
 - FMVSS 209, 302, 210, 222
 - CMVSS 209
 - CSA Z605
 - AS 2596
 - ADA
